

CAROL MOORE

Council Member City of Laguna Woods

As a Village resident for almost 20 years and Council Member, I believe I have a good grounding in the issues. I have an MA from the University of Denver, managed my own industrial supply business and believe my education and training provide the skills needed to address City issues. As a Council Member, I serve on SCAG Transportation and Emerging Technologies Committees as well as the OC Library Advisory Board, South Orange County Watershed Management and LAFCO.

Public service is important to me and as the former president of Third Laguna Hills Mutual as well as serving on GRF, I worked with others to help keep our community economically viable. As a council member I continued to tackle challenging issues. Understanding how the relation of service can enhance not only quality of life but also security is paramount. My goal continues to be to effectively represent all members of the community to ensure that City services operate in a safe, secure and environmentally appropriate manner. I respectfully ask for your vote.
